Vision Agile Management Tools

New organizational paradigm

Vision Agile Management software tools helps your company to **enable cultural and structural fit**. Your People Management efforts must actively strive to monitor this fit and then work with teams to help them become better aligned.

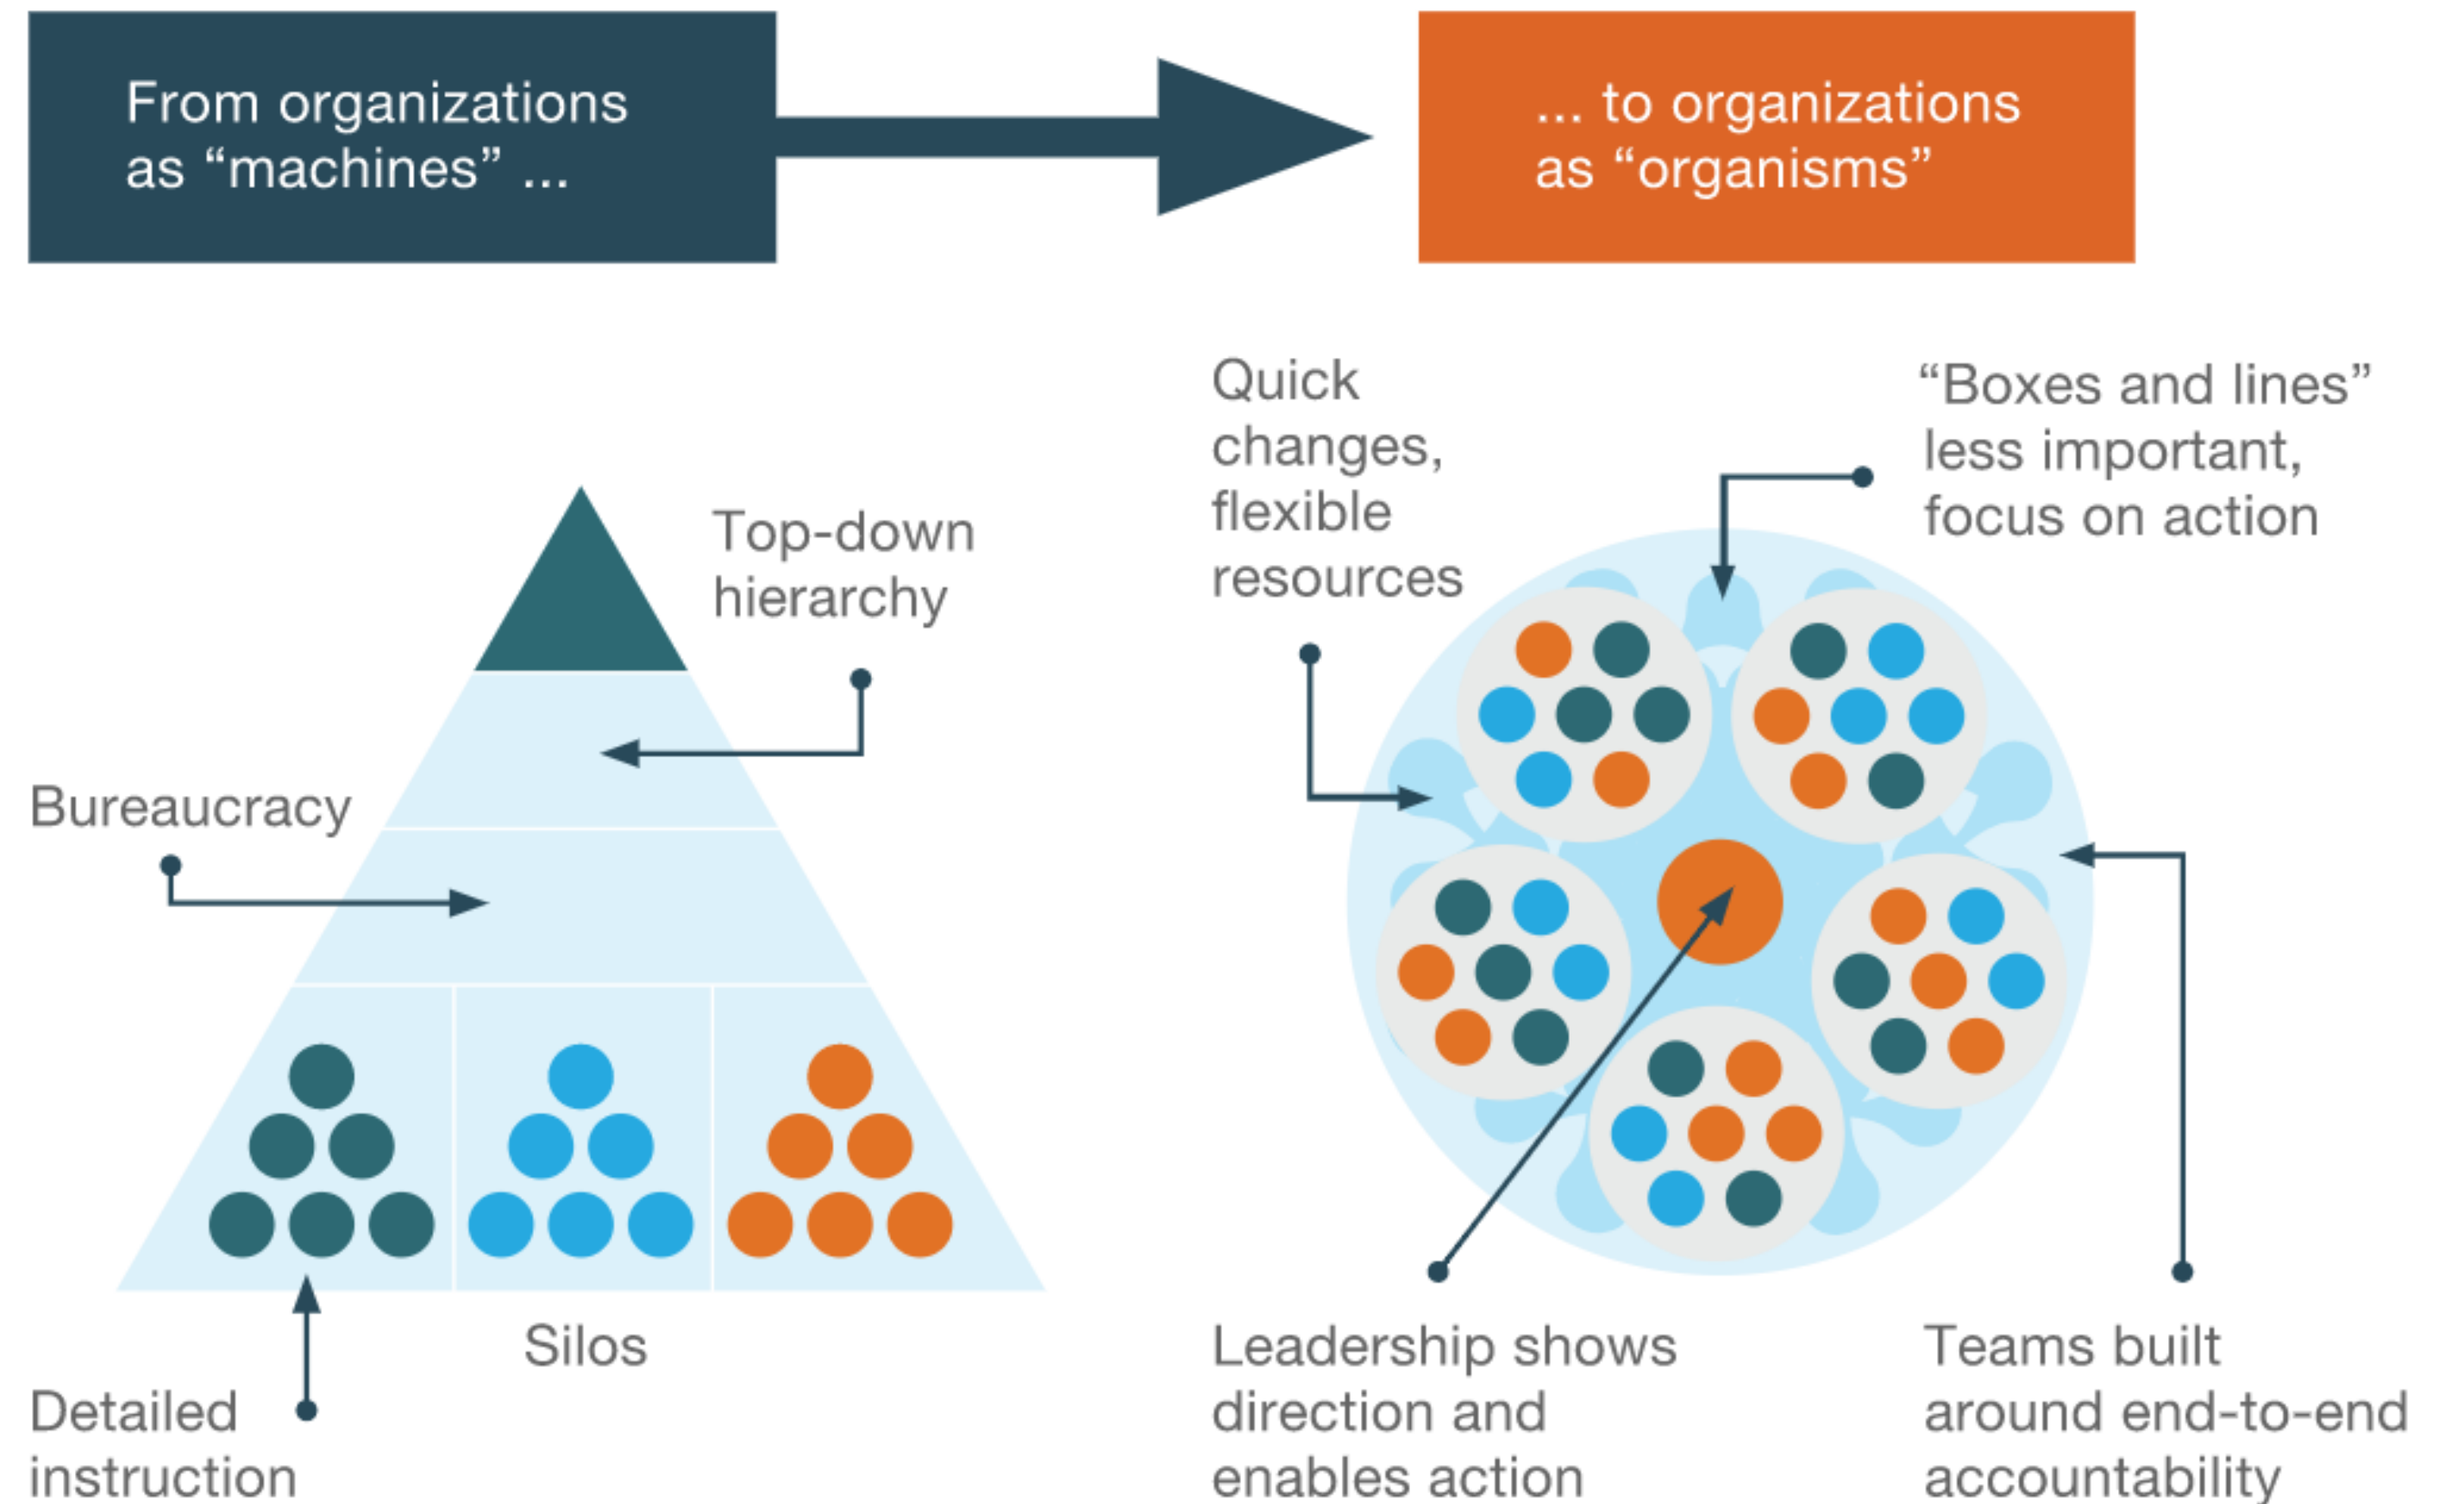

Reward employees for agile behaviors. Vision Agile Management tools enable your company to reward people for delighting customers, for effective teamwork, for collaboration, and for learning.

Support agile teams. Enable teams to organize themselves, manage their work, and evolve their own process or “way of working.”

Energize people. People who are energized, who are happy, who love their work are far more productive than people who are not.

Enable people. Help leaders to push decision making authority to the people who do the work and help these people to accept this authority and responsibility.

Rather than organization as machine, the agile organization is a living organism

McKinsey&Company

Vision Agile Management

Using games for daily management

Vision Agile Management enable your employee with easy to use web 2.0 application allowing to rate each interaction with specific feedback, using game-design elements and game principles in non-game contexts.

With this tools, the corporate world is looking towards exciting, inviting models, systems and platforms for employees in order to reach the necessary level of motivation and active engagement.

Create a win-win situation for both the organization and the employees through the combination between the gamification process and daily tasks evaluation.

Benefits:

- **Increased productivity:** working becomes funny, and people are more focused;
- **Increased employee satisfaction:** the workplace becomes an exciting place;
- **Increased employee retention**
- **Increased quality**
- **Increased employee morale:** recognition can be very rewarding for the mind and can elevate the mood of the employees.

The Platform is available for mobile / tablet so that the provision of new ideas can be made in any context that includes interaction between colleagues (meeting, agency, travel, etc.).

Team's Voice

Agile Management and Performance Evaluation

- Employees has the opportunity to present ideas or signal the problems identified over time within the company, but also to propose solutions to solve or improve them.
- The ideas presented and the problems reported, as well as the solutions to solve them will have to be voted, and in order to reach implementation they must meet a necessary number of votes for each phase:
 - Phase 1, corresponding to the initiator's or topic's area or department
 - Phase 2, corresponding to the initiator's or topic's region / division
 - Phase 3, corresponding to the national level
- All employees can view and vote the ideas from each stage in separate pages filtered accordingly
- Each employee has the opportunity to comment and vote on any proposal
- Specific adjustments can be implemented according with each company internal rules

The screenshot displays the 'Team's Voice' application interface, showing three proposal cards in the 'IN TESTARE' phase. Each card includes the proposer's profile (name, role, ID), a 'Situatia actuala' (current situation), a 'Propunere de imbunatatire' (proposed improvement), and a 'Zona impactata' (impact zone). A 'VOTEAZA' button is visible on each card. A modal window on the right shows the form for adding a new idea, including fields for 'Situatia actuala', 'Propunere de imbunatatire', 'Zona impactata', and 'Categorie'.

Vision Agile Management Learning Management System

The screenshot displays the LMS interface. On the left, there's a video player showing a strawberry. Below it is a navigation menu with 'OUTLINE' and 'NOTES' tabs. The 'NOTES' tab is active, showing a search bar and a list of course sections. The main content area displays the 'Obiectivele programului' (Program Objectives) for a course related to insurance distribution. The objectives are listed as follows:

- Obiective specifice:**
 - 01 Cunoașterea cadrului legislativ național și european specific activității de asigurare și/sau reasigurare și distribuției de asigurări și/sau reasigurări, inclusiv implicațiile legilor speciale
 - 02 Însușirea principiilor generale ale activității de asigurare, a terminologiei specifice produselor de asigurare și reasigurare, a liniilor de activitate de asigurări
 - 03 Asimilarea principiilor de bază ale eticii profesionale și a principiilor de bază în distribuția produselor de asigurare și reasigurare
 - 04 Cunoașterea prevederilor legale privind protecția datelor cu caracter personal și prevenirea și combaterea spălării banilor
 - 05 Însușirea noțiunilor fundamentale privind managementul resurselor umane și al companiei
 - 06 Însușirea noțiunilor fundamentale de management financiar și contabilitate în domeniul asigurărilor

At the bottom of the interface, there are playback controls including a play/pause button, a progress bar (2 / 265), a timer (00:00 / 00:01), and navigation buttons for 'PREV' and 'NEXT'.

Technology and Integration

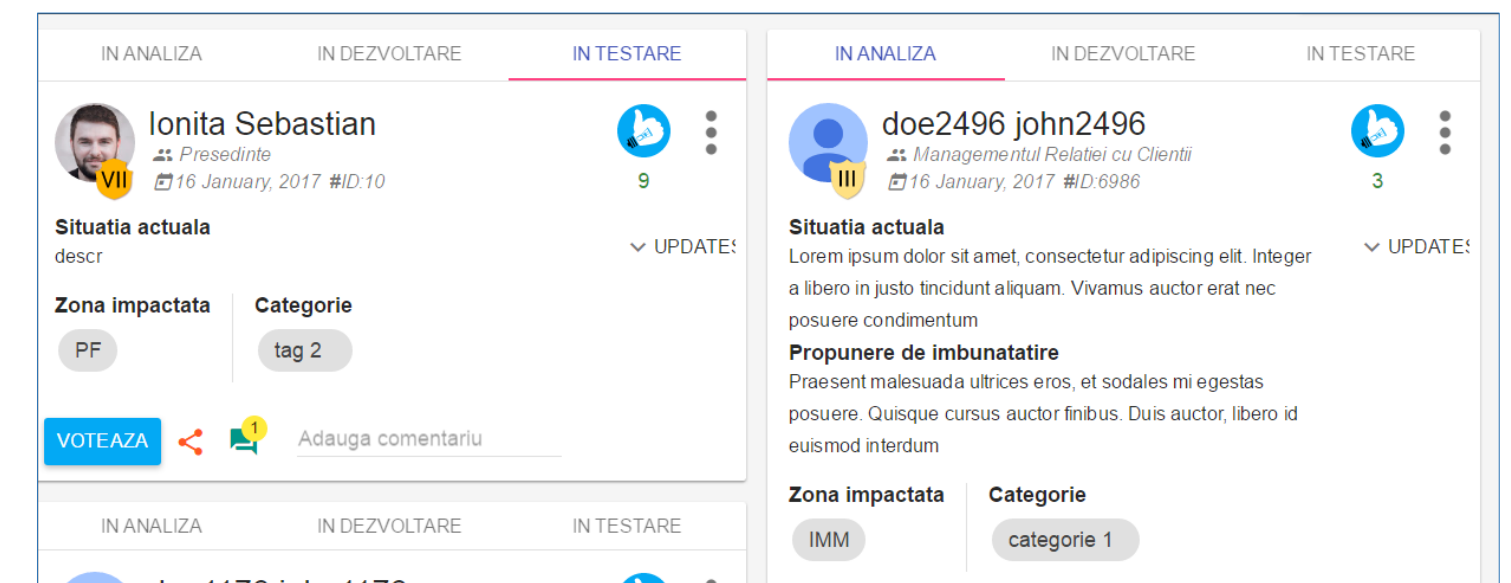

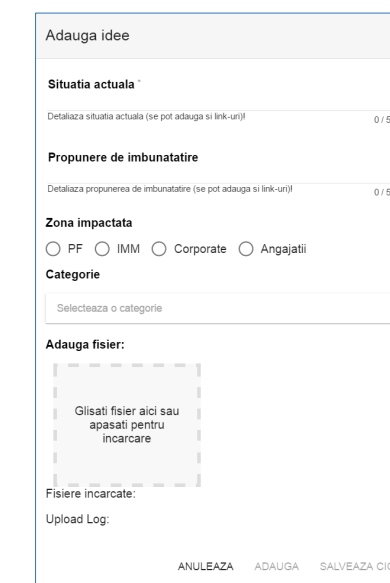

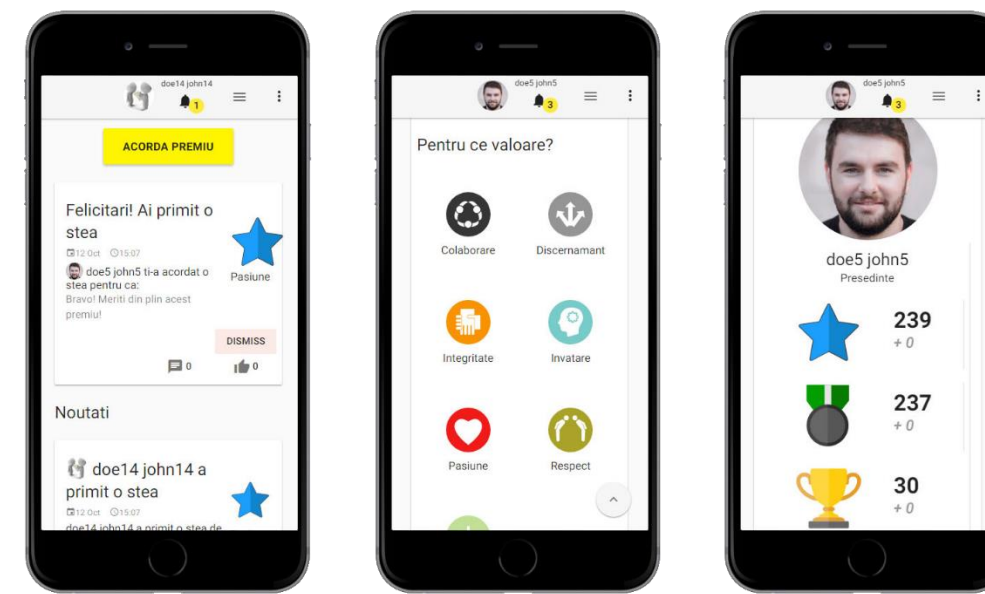

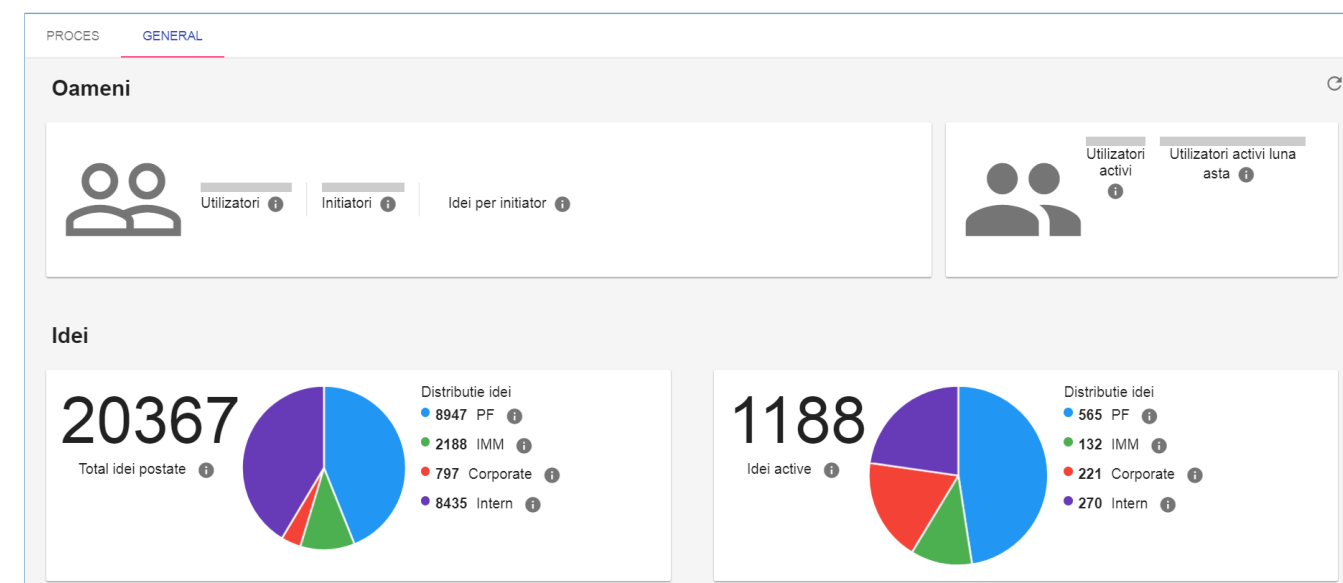

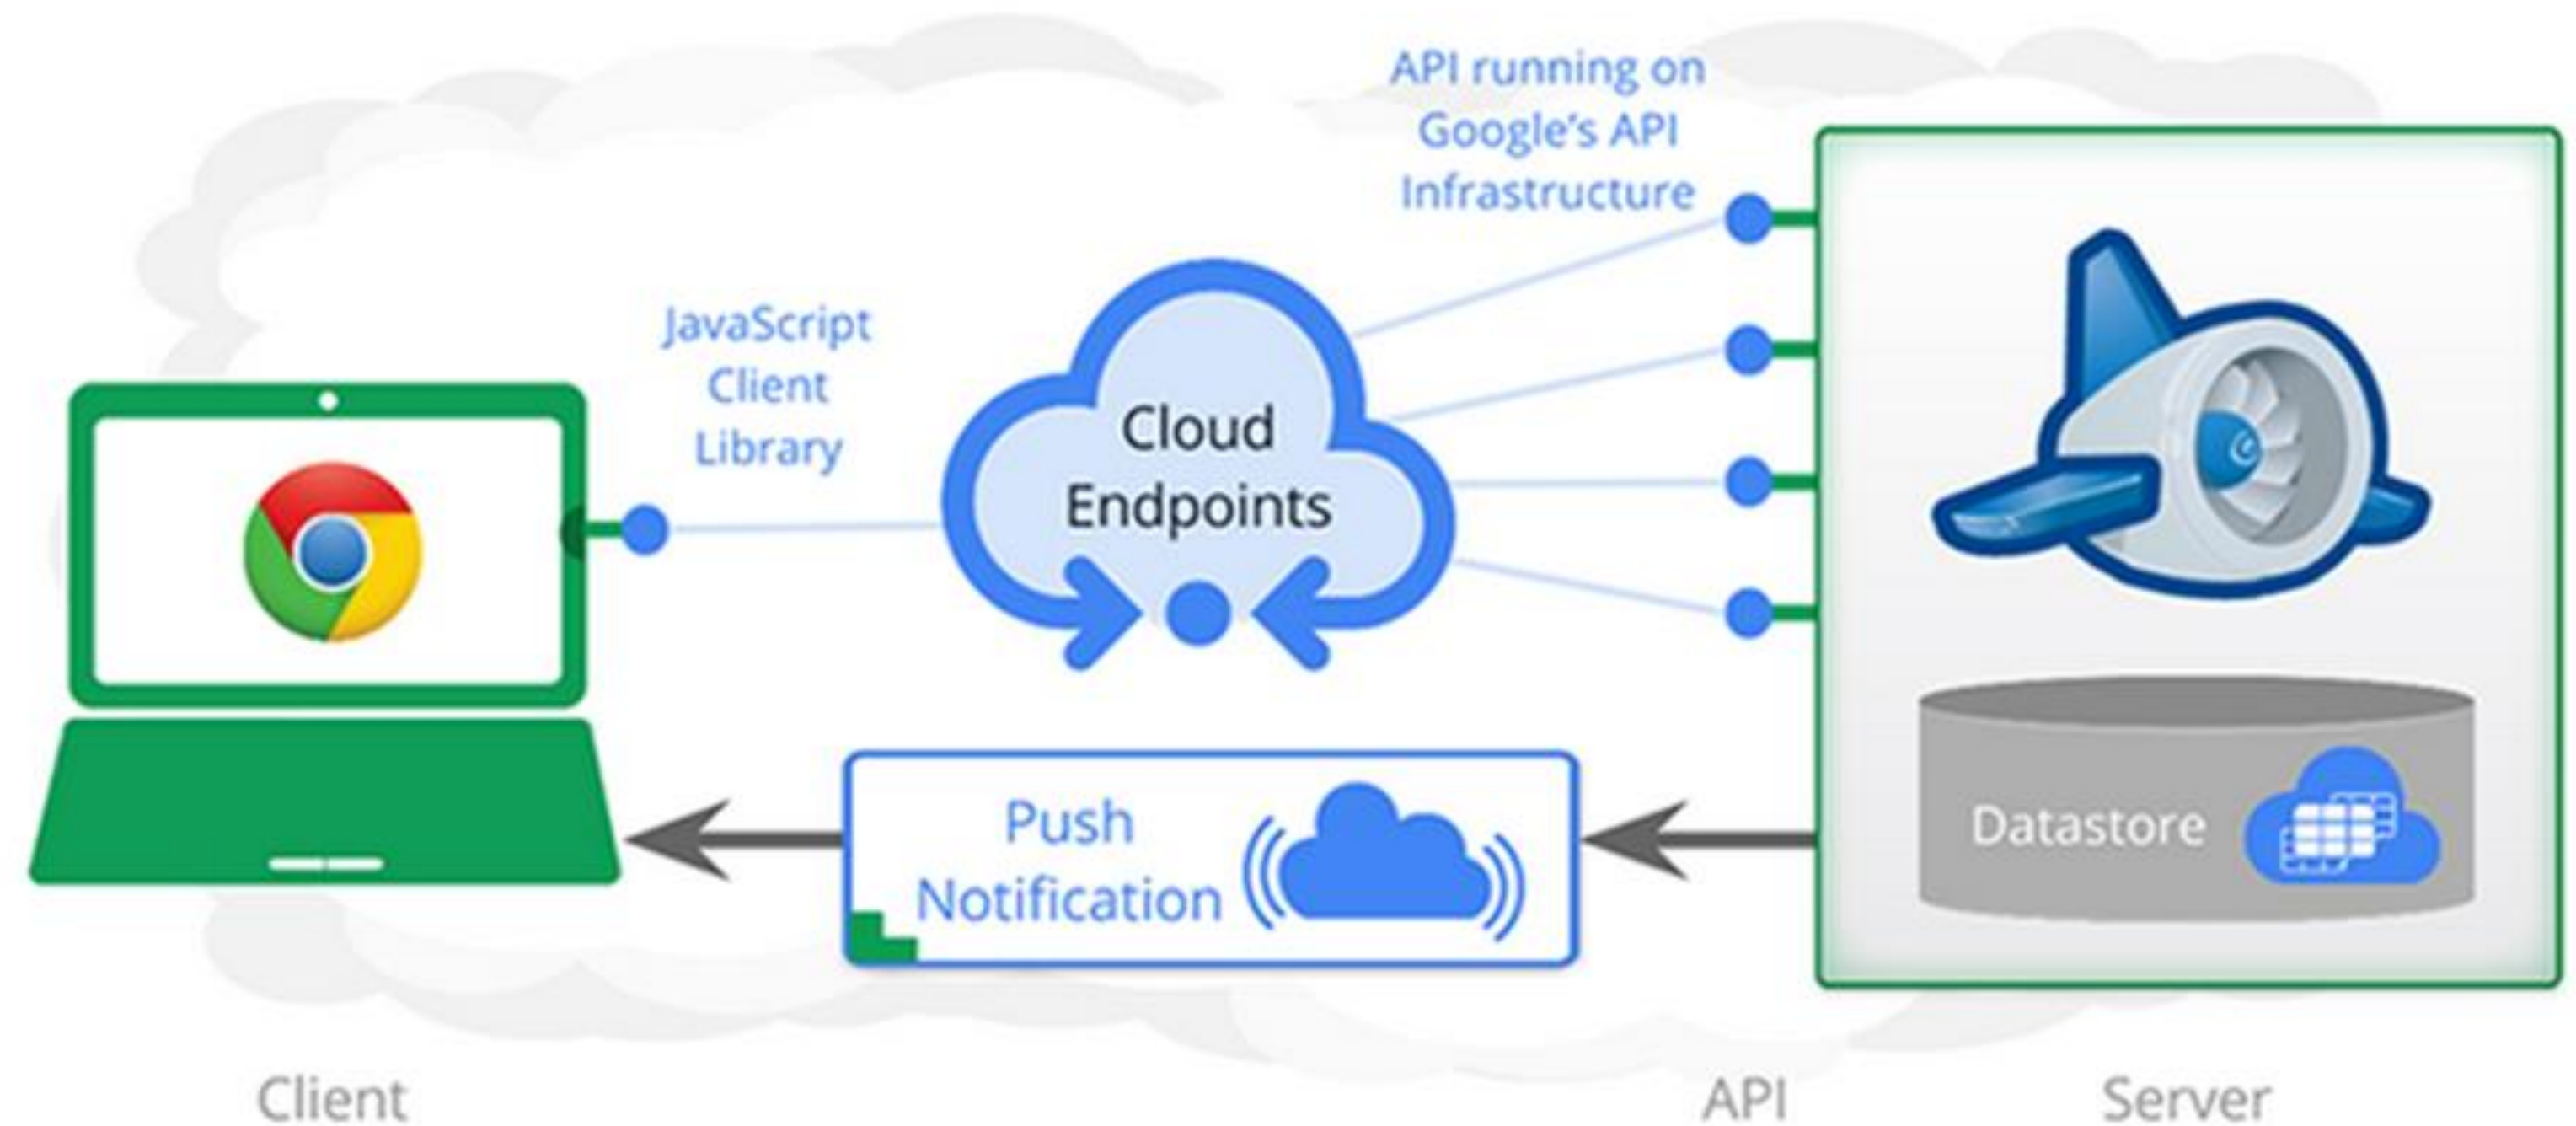

Create complex applications in visual designer, with no code and high flexibility for further changes and customizations with Vision App Maker Platform.

Vision Agile Management Technology

Multi-layer Architecture:

- Presentation Layer: Bootstrap, Google Charts\
- Business Layer: Angular 1.5, Java Backend
- Persistence Layer: Cloud Sql / MS SQL Server
- Security: Google / Microsoft AD

Vision App Maker Suite

Build complex applications in visual designer, without code.

- Easy build new application from scratch
- Integrate existing platforms and legacy systems into unified application
- Digitalize your business workflows through business processes re-engineering
- Enhance Business-Integration Speed & Agility
- Optimize operations with processes prepared for rapid evolution
- Drive innovation by quickly creating innovative digital products and services
- Accelerates Transformation
- Simulate working software much earlier in the cycle enabling project team to iterative prototyping and agile development

Our customers are successfully rollout their daily operation on applications powered by Vision App Maker:

Vision App Maker is a mature platform with 100+ implementations for various industries: Banking, Insurance, Automotive, Pharma, Services, Government, Distribution, Travel, Field Services.
